

Save-A-Battery

Peace of mind is always a welcome gift, and Granite Digital aims to please with their new Solar Battery Maintainers. Available in 2-Watt, 5-Watt, and 12-Watt designs, the Save-A-Battery Solar Maintainer provides peace of mind even when you can't (or don't want to) plug in the Maintainer. The 2-Watt is perfect for smaller applications like ATVs, motorcycles, go karts, and the like; the 5-Watt maintainer was designed for most cars and trucks, while the 12-Watt model is perfect for RVs, large trucks, and/or multiple battery maintenance. The Save-A-Battery system was designed not only to charge a battery and maintain a current, but to exercise batteries, check on charging systems, provide information on how vital a battery is, and keep it as healthy as possible. Fantastic for cars in storage for any duration – See the Save-A-Battery/Garage Style Magazine Subscribe and Save Offer on Page 44.

Autobooks-Aerobooks

Limited to 5,000 copies, the 1:18-scale 1937 Bugatti Type 57 SC Atlantic is crafted of innumerable components with absolute attention to detail, finished in black, and is a certain hit with any collector or enthusiast. To boot it has a story – this is a replica of the car owned and restored by Ralph Lauren who bought the car in the late 1980's. During the restoration he painted it black and gave it a black interior, a complete deviation from the original blue color the car wore when it was purchased in 1938. CMC, who crafted this black car, also crafted a limited edition of the blue car, giving a sort of yin and yang feel. Will lend a museum touch to any office, den, garage, or other room.

BLT

RaceDay Peel & Stick tiles from Better Life Technology are a must add to your wish list for this season. Made from solid vinyl construction for a tough, gloss surface, the tiles are easy to install and most of all easy to clean. Make your garage, work area, shop, or man-cave look like a million bucks while hiding stains, cracks, and all imperfections. The Tiles act as a vapor barrier while adding floor cushioning to hard surfaces, and will even adhere to uneven or worn surfaces. RaceDay tiles are manufactured proudly in the USA and come with a five-year warranty. With a variety of options in colors, sizes and two patterns to choose from, these easy-to-install tiles are sure to add life to a boring bare floor or area, and are the perfect gift for the home; \$3.60 – \$4.20 per square foot.
