11. RB WHEEL

DEZENT WHEELS ● MSRP: WEBSITE

Info: www.dezent-wheels.com

The new RB from Dezent-Wheels is named after the abbreviation for the football position; Running Back. Light on its feet but strong as an ox, the RB mirrors its inspiration with its high-strength split five-spoke design. These TÜV-approved rollers come in many different sizes as well as widths and when paired with their elegant silver finish they'll accentuate just about any steed.

12. SMART FORTWO COILOVERS

KW SUSPENSION ● MSRP: V1: \$1295.00, V2: \$1595.00

Info: www.kwautomotive.com

Get smart about your Smart by adding some killer suspenders from KW suspension. Ditch the crummy OE shocks and springs for a set of KW V1 and V2 coilovers that allow height adjustment from 5-30mm up front and 20-40mm out back. The V1s come factory-set with damper settings, while the V2s let you take control of the rebound damping. As you'd expect from KW, these bodacious bolingers are top-notch quality with their infamous inox-line stainless construction and chassis-specific engineering.

13. POTENZA RE-11 TIRES

BRIDGESTONE ● MSRP: WEBSITE

Info: www.bridgestonetire.com

Bringing Formula 1 technology to the street, Bridgestone's new RE-11 uses "Stealth Technology" to stick like glue. Improving upon the ever-popular RE-01R, the new RE-11 is said to be better on all fronts, and with its recent string of victories in SCCA autocross events across the US, we have a feeling they're right. Combining in their patented stiff sidewalls with the new "Stealth" tread blocks improves both wet and dry traction. Available in 31 different sizes ranging from 15-19" with V- and W-speed ratings, these tires are a formidable option for your Euro.

14. TIDORE DARK WHEELS

AEZ WHEELS ● MSRP: WEBSITE

Info: www.aez-wheels.com

Add some darkness to your ride with the new Tidore Dark from AEZ-Wheels. These lightweight beauties feature five double-spokes and were designed for the underwater scuba show car (see News at eurotuner.com), but have now found their way to the consumer. Dark but refined, the Tidore features a polished silver face with a matte clearcoat and anthracite matte accents to create its unique look. These rollers range from 16-19" in various widths.

15. G-FLOOR

BETTER LIFE TECHNOLOGY ● MSRP: WEBSITE

Info: www.blitlc.com

Want to cover your garage floor to protect it from spills and scrapes, but hate the snap-together and paint-on methods? Well the new G-Floor from BLT might just be your ticket. Made from a roll-out Polyvinyl, not only does it quickly adhere to the floor but it also features channels that direct spilled liquids in the direction of choice. If your old floor needs a re-vamp, you just might wanna give it a BLT. Did we also mention it's available in a variety of colors?
