FEATURES

Protect your boat deck from wood rot and more with slip resistant, durable, polyvinyl, AquaTread[®] marine flooring. Offered in several colors, customized to fit any interior, our flooring provides UV resistance for long-term color retention. AquaTread marine flooring will hold its quality for years to come.

Performance

AquaTread marine flooring is a seamless, easy to install, slip-resistant, flame retardant, durable, high performing polyvinyl that is UV stable for long-term sun exposure, excellent color retention and low-maintenance cleaning. Our marine flooring products are installed on boat floors throughout the world.

Design

AquaTread comes in standard widths of 8 ft 6 in or 10 ft, , and custom lengths, up to 75 feet, and in 75 mil for cushion and durability.

Durability

The seamless solid material offers superb moisture protection and resistance to oils, gas, fishing scents and more. Your boat floor covering will not snag, deteriorate or smell, will clean quick and easy, and look good for years to come.
