# LEVANT ROLL-OUT FLOORING

## FEATURES

G-Floor® Roll-out Flooring by Better Life Technology is signature line of high quality vinyl flooring purposefully-designed for easy installation and maintenance and perfect for both residential and commercial applications. G-Floor is made with single piece construction so there are no weak points, for long lasting beauty and protection. This waterproof flooring can be used to cover old stained floors or used to prevent future damage. It is so easy to install, just roll out and trim if needed. Mats can be joined together for a full wall to wall installation. Once installed, your G-Floor adds the perfect layer of protection against everyday accidents. It is resistant to common chemicals, so you no longer have to worry about oil leaks or road salt, just quickly wipe up with a damp mop or mild detergent or vinyl floor cleaner for a deeper clean. G-Floor Roll-out Flooring will provide years of protection and look good doing it.

The Levant texture provides your floors with an upscale look, as well as traction for a slip resistant surface. The Levant Texture option will leave your floors with a clean, classic look and durability for years to come.

This Levant surface texture is a semi-smooth, matte surface composed of shallow valleys and abrupt edges, much like the surface of leather.

## SPECIFICATIONS

|                             |   |
