MOTORCYCLE MAT

FEATURES

G-Floor® Universal Motorcycle Mats by Better Life Technology go anywhere to showcase your prized possession while protecting residential and commercial floors. As with all other G-Floor® Universal Flooring products, our Motorcycle Mats are made in the USA and designed to provide years of performance under the heavy weight of the bike (or lawnmower, ATV, golf cart, etc.) Repositionable to move with you and your bike in garages, sheds or other outdoor storage areas, Motorcycle Mats just roll-out, need no adhesive and roll-up for ease of storage. In addition to giving your motorcycle a custom parking space, mats hide unsightly flooring cracks, stains and other imperfections. G-Floor® Universal Motorcycle Mats are padded for cushioned comfort and designed with ribs for better traction and improved collection of water and debris for easy maintenance. Clean outside with a hose or simply wipe with soap and water.

G-Floor® Universal Motorcycle Mats are available in a 5 ft x 10 ft black mat with a Rib textured top, thick foam padding and a slip-resistant bottom. The classic, patented, Ribbed channel design runs the entire length of the product, featuring raised ridges that are 0.125in wide, 0.030in tall and spaced 0.375in apart.

For a more personalized statement, opt for the Black Freedom Label Motorcycle Mat from G-Floor®.
